

Halligan

30" & 36"

Forged One-Piece

- One-Piece forged alloy steel
- Working ends heat treated for maximum strength and durability
- Widths and tapers allow easy penetration
- Powder coated in a mirror silver for enhanced visibility and superior protection
- Forged in strap loops

Axes

6# & 8#

Flat & Pickhead

Fiberglass Handle

- Flathead and Pickhead
- Forged tool steel heads
- Hand sharpened with tapered cutting edge
- Heads coated in red enamel and cutting edges in clear lacquer
- Fiberglass handles have a pultruded structural fiberglass core with an injection molded jacket acting as an exterior body
- Handles are epoxied into the tapered eye creating an extremely strong chemical and mechanical bond

Sledges

8#, 10#, 12#

Fiberglass Handle

- Forged tool steel head with clear lacquer finish
- Striking face is precision-machined with proper radius and chamfer (bevel)
- Heat treated after machining for increased depth of hardness
- Heat treated to Rc 46-54 (Rockwell)
- 36" American-made fiberglass handle
- Handle is epoxy bonded to bare metal eye, creating an extremely strong chemical and mechanical bond

Pike Poles

- Meshed, pultruded fiberglass poles are lightweight, durable and high strength
- Pole lengths of 3' to 12' (8' size is total length for UPS shipping)
- Hooks assembled with heavy duty spring steel pins for durability and easy maintenance
- Available with a wide variety of hook ends and handles (D-handle or textured grip)
- High visibility fiberglass for low visibility environments

Pole
Cross-Section

- Honeycombed core for superior strength and weight
- Two times stronger than competitive offerings
- Diameter 1¼" (31.75mm)

Roof Hooks

- Heavy wall steel pole
- Forged tool hook and pry ends
- Lengths 2', 4', 6' & 8'
- Durable powder coated finish
