

TYPE I

LIFE LINE
EMERGENCY VEHICLES

The Type I provides all of Life Line's latest innovations of the Paraliner & Superliner with chassis options of a traditional engine-forward configuration.

- Available for the Ford F350, F450, & F550, the Dodge 4500 & 5500 with 2WD or 4WD options
- 147", 152", 167" & 171" body lengths with available pass-thru or crawl-thru
- Finished Headroom choices of 68", 70", 72" & 74"

100% Employee Owned!...Life Line is relentlessly focused on producing ambulances and providing services that exceed customer expectations. Each Life Line partner is empowered to pursue these goals with pride and professionalism.

A few of our Standards that help minimize your down time & keep you safely in service...Life Line features a structural cage formed from:

- Side Walls constructed of 2 x 2 vertical & 2 x 3 triple hollow vertical extrusions as well as a minimum of (5) 2x2 horizontal extrusions in between those verticals.
- A Ceiling/Roof that consists of a 6" Channel Extrusion we call the "Center Spine" with Hat Channel Extrusions 18" on center perpendicular on both sides.
- Interlocking "V" Joint Floor Extrusion that forms a 2x2 box channel at 10" on centers.

Life Line ambulances are designed by EMTs for EMTs. That means you find we pay uncommon attention to the details that make your job safer & easier.

Life Line allows you to customize your "office" with a wide range of thoughtful, EMT-designed features:

- | | |
|------------------------------------|--------------------------------------|
| Quick Release Portable O2 Brackets | Positive latch restock cabinets |
| 4-Point Safety Harness Seat System | Interior Cabinet LED Lighting |
